

# South Carolina Monofilament Recycling Program

## What is Monofilament?

Monofilament is fishing line and is typically a single strand, strong, flexible plastic that is clear or tinted blue, pink, or green.

## Why Recycle?

Discarded monofilament is harmful to wildlife and a nuisance to boaters. Recycling helps keep it out of our waters and landfills

## What products are made from recycled monofilament?

\* Fish habitats \* Spools for monofilament line \* Tackle boxes

## How can I get involved?

### Adopt – A – Bin!

DNR will supply you with all of the materials you need to get started. All YOU have to do is:

- Secure the bin in a location of your choice
- Monitor the bin's quantity of monofilament
- Empty monofilament line into pre-paid boxes from Berkley
- Send boxes to Berkley and they will send you additional pre-paid boxes to use

Contact Elizabeth Vernon at (843) 953-9359 or [vernone@dnr.sc.gov](mailto:vernone@dnr.sc.gov) and adopt your bin today!
